

Quality Assurance Policy

It is the policy of **Aviation Spares & Repairs Limited** to establish and maintain an efficient and effective quality assurance program, planned and developed in conjunction with all management functions, outlined in a series of manuals, which are designed to eliminate the occurrence of deficiencies and inaccuracies.

The assurance of quality is fundamental for all work under-taken by the Company, and is practiced by all personnel in their daily activities.

To promote a uniformity of work method throughout, it shall be the responsibility of management to compile and update procedures to reflect current customer and company philosophies. The requirements of these protocols shall be implemented and integrated into the Company's regular working methods, ensuring that all such methods are clearly defined and documented.

It shall be the duty of the Quality Assurance Department to monitor constantly the implementation of the current quality assurance program in order to verify that the necessary systems and procedures exist or, in the absence of such, to determine that they are raised and to verify their introduction and adherence by regular auditing.

The Quality Assurance Department shall be so organised as to be free from commercial/contractual restraints and to represent Aviation Spares & Repairs Limited on all matters relating to quality assurance.
